

Masters Post Graduate Research Grant

Chemistry

The Grant:

Polymer Group Limited is seeking expressions of interest from Masters or PHD Students to undertake a chemistry research project to be funded by the Ministry of Science and Innovation, (MSI). MSI Fellowship funding enables students to complete R&D projects in companies. The fellowship involves the company, a student and a tertiary institution. \$20,000 is available for the student as a stipend. The research work will be undertaken as part of required tertiary course and may include a thesis. The research programme should take no longer than one year.

Terms of Reference:

The student will be involved in three research and development projects. The projects are:

- 1 Water Based Epoxy Floor Coating and Self Levelling Toppings
- 2 Thermal Resistant Floor Coating
- 3 Rapid Cure Paint Process for Pultruded Fibreglass

Student Criteria:

- The student must be studying science, technology or engineering at a NZ University.
- The student must have completed their final year of study towards an undergraduate degree.
- The student must be a NZ citizen or have a current work permit.

Due Date:

Expressions of interest should be received by 31 October 2011.
